While in New York Mr. Henry had the pleasure of taking an automobile trip with a friend, from New York city to a point in Massachusetts, passing through the State of New York and Connecticut. Mr. Henry was delighted with the trip because it gave him an opportunity to see that part of country—a country very much different in all respects from Florida. He says the country roads they traveled were all macadamized and as hard and solid as the paved streets of any city. On the trip he visited Winchester, Conn., and saw the great factory where 5,000 men are employed manufacturing the Winchester guns. But after all Mr. Henry thinks Live Oak is the best place of all, and is better satisfied than ever with the "Land of Flowers."

## Did It Ever Occur to You?

"I paid that bill once."

"You must be mistaken."

"Indeed, I am not mistaken."

"Have you a receipt?"

"It seems to me I have, but I don't remember what I did with it."

"We have no record of payment, and unless you can produce our acknowledgement in the way of a receipt, we must insist that you pay the account."

But it might have been a different story had the bill been paid with a bank check. No chance for argument or dispute when the cancelled check is produced. Better pay your bills but once—with a check on this bank.

Call at the Democrat office and pay your subscription. We need money so very badly that we would not refuse to receipt you for several years in advance if you should feel inclined to pay that far. The postoffice authorities at Washington, have made some new rulings that not only compels us to keep up with our subscription accounts and limits us to a cash basis, but also hits the man a heavy blow who takes a paper out of the postoffice and then refuses or neglects to pay for it.
